POWERFOG TB60

LVM SUITED FOR TREATING AREAS UP TO 2 HECTARES

Powerfog TB60 gives you results and saves you time

The Powerfog TB60 combines a big fog capacity with a quality droplet size (measurement report available). Therefore the Powerfog TB60 can treat 2 hectares in 2 hours, giving the complete greenhouse **a uniform fog for the best results**. The completely automated controls make working with the Powerfog TB60 easy and will help you to prevent an outbreak of any unwanted pests in your greenhouse. With the Powerfog TB60 you can cut down on hours and hours of spraying with simply a push of the button.

Depending on the options on your fogger, your product may look different from the image.
