

POWERFOGGER 60

POWERFUL FOGGING MACHINE FOR LARGE SPACES OF 1000 - 9000 M³.

Simplicity for the best results

The Powerfogger 60 is a versatile but simple to operate fogging machine. Due to its powerful air pump, the powerfogger is suited to provide air for 1 or 2 nozzles and can fog 20 to 40 liter an hour. This means the Powerfogger 60 can treat areas from 1000 up to 9000 m³ an hour.

Because of his compact configuration, but powerful components as the air pump and ventilator, the Powerfogger 60 is the right choice for treating areas in the poultry, food and mushroom industry.

Depending on the options on your fogger, your product may look different from the image.

FOGGING & HYGIENE

POWERFOGGER 60

POWERFUL FOGGING MACHINE FOR LARGE SPACES OF 1000 - 9000 M³.

Specifications

- Equipable with one or two (duo) nozzles
- Multiple tank sizes possible, optional with agitator
- Fully automated fog program
- Rinsing program during and after fogging to prevent stoppages
