VACCINATION

BATTERY CHARGED BACK PACK SPRAYER

MARUYAMA MSB15LIDX, the most complete Back Pack Sprayer, has now been renewed.

The pump delivers a constant pressure which means a clean and regular spray pattern.

100 - 120 µm

15 L

FVX-SPRAYER

De FVX-Sprayer is a vaccination sprayer, the perfect tool for quick vaccination.

Portable, lightweight and cordless. Droplets are electrostatically charged creating a compact spray pattern.

60 - 80 µm

Portable

TURBOFOGGER

The portable fogging device that is ideal for distributing a vaccine in a large poultry house. Even if vaccination must penetrate into the respiratory tract.

1 - 20 l/h

6 L

Mobile

HEAWAT

Suitable for pipes in the livestock sector.

Powerful pulses of water and compressed air through the pipes, in intervals. This generates a mechanical scrubbing. Cleaning your drinking lines without using chemicals,

Tubing up to 1" wide and 500 meter length.

Mechanical scrubbing of the tubing

DISINFECTION

POWERFOGGER 100

The powerhouse of the Powerfogger line.

The familiar fogging technology is combined with an enormously powerful fan that can move fine mist over a length of more than 100 metres.

40 l/h

150 m

100 l

POWERFOGGER 60

A versatile and easy-to-operate fogger. Due to its powerful air pump, the powerfogger is suited to provide air for 1 or 2 nozzles and can treat areas from 1000 up to 9000 m³ an hour.

35 l/h

80 m

60 l

K40

With a **capacity of 120 l/h**, large areas can be treated in a short time. Due to its enormous power, it can combine this capacity with a very fine and uniform mist that is spread over a length of 120 metres.

60 - 120 l/h

120 m

Mobile

COLDFOGGER

The **ULV coldfogger system** has been specially developed for disinfecting breeding farms and hatchery.

5 - 10 µm

Fixed installation.
