

# FOGGER CATALOGUE

OUR SOLUTIONS FOR CROP PROTECTION, DISINFECTION, SPROUT INHIBITION & FOOD SAFETY

## CROP PROTECTION

 Successfully tested with biological agents

### POWERFOG TB60

The Powerfog TB60 Double combines big fog capacity with quality droplet size. **This electrical ULV fogger can treat 2 hectares in 2 hours**, giving the complete greenhouse a uniform fog with great results.

The best coverage & Labour-saving.

30 l/h

2x50 m

### HALOFOG 900

The HaloFog 900 is suited for fogging temperature sensitive crop protection solutions as well as strongly corrosive disinfectants. Due to the use of compressed air, the HaloFog is very reliable and maintenance friendly.

40 - 400 l/h

150+ m

### K40

With a capacity of 120 l/h, large areas can be fogged in a very short time. By power, its capacity is paired with a uniform fine mist that can be spread over a length of 120m.

60 - 120 l/h

120 m

Mobile during fogging

### POWERFOG TB100

**The powerhouse in the Powerfog brand.** The proven technique of the air pump is combined with an enormously powerful fan that can move fine mist over a length of more than 100 metres.

40 l/h

150 m

100 l

## DISINFECTION

### TURBOFOG

An **electric fogging device**. Thanks to its handy size and complete equipment in stainless steel and Viton, it can be used with practically all liquids and in all conditions. Even in confined spaces.

1 - 20 l/h

6 l

Portable

### POWERFOG 100

The **powerhouse in the Powerfog brand**.

The proven technique of the air pump is combined with an enormously powerful fan that can move fine mist over a length of more than 100 metres.

40 l/h

150 m

100 l

### POWERFOG 60

**Suitable for treating areas up to 9000 m<sup>3</sup>**. Fully automatic, compact and versatile. The Powerfog 60 fits into any hygiene plan. Can be implemented with various **options**.

20 l/h

30 m

60 l

### HALOFOG 400

The **Halofog 400** is an **integrated electrical ULV fogging system for disinfecting trailers** with the push of a button. The nozzle uses the available compressed air to create a dry fog inside of the trailer.

40 m<sup>3</sup> can be fogged in 10 minutes

## SPROUT CONTROL

### SYNOFOG; The standard in sprout inhibition

The innovative electro-thermal fogger specially designed for the effective and **safe fogging of modern sprout inhibitors.**

Thanks to its fully electric system and the **absence of an open flame**, the Synofog offers a 100% safe solution for the use of flammable liquids in a wide range of applications.

#### User-friendly and low-maintenance:

- **Plug & play:** no installation required
- Self-regulating liquid supply
- Smart options (WiFi or 4G Module) for remote control and updates
- **Innovations** such as the powerlimit

10 - 30 l/h

## FOOD SAFETY

### HALOFOG 800

We proudly present the Halofog 800 fogging system – an advanced and costum made solution for effective and efficient disinfection of process areas.

#### Benefits of the Halofog 800

- ✓ Increased Food Safety
- ✓ Reduction of Operational Costs
- ✓ Compliance with industry standards

#### How our fogging equipment can support you?

Get in touch with us. We are happy to think along with you!
