DISINFECTION

POWERFOG 100

The powerhouse of the Powerfogger line.

The familiar fogging technology is combined with an enormously powerful fan that can move fine mist over a length of more than 100 metres.

40 l/h

150 m

100 l

K40

With a **capacity of 120 l/h**, large areas can be treated in a short time. Due to its enormous power, it can combine this capacity with a very fine and uniform mist that is spread over a length of 120 metres.

60 - 120 l/h

120 m

Mobile

POWERFOG 60

Suitable for treating areas up to 9000 m³.

Fully automatic, compact and versatile. The Powerfog 60 fits into any hygiene plan. Can be implemented with various options.

35 l/h

80 m

60 l

HALOFOG

Ideal for egg disinfection at breeding farms and hatcheries. The **pneumatic ULV Halofog system** has been specially developed for spraying disinfectants on eggs or in rooms. It provides effective and even treatment.

5 - 10 µm

Fixed installation.

VACCINATION

BATTERY CHARGED BACK PACK SPRAYER

MARUYAMA MSB15LIDX, the most complete Back Pack Sprayer, has now been renewed.

The pump delivers a constant pressure which means a clean and regular spray pattern.

100 - 120 μ m

Mobile

OTHER PRODUCTS

CHICKPAPER

100% Biodegradable, ensures better chick living conditions. Chick paper encourages chicks to look for the exact location of feed and water. By placing the chick paper under the water and feed line, it is easily accessible and has a proven higher yield.

HEAWAT

Suitable for pipes in the livestock sector.

Powerful pulses of water and compressed air through the pipes, in intervals. This generates a mechanical scrubbing. Cleaning your drinking lines without using chemicals,

Tubing up to 1" wide and 500 meter length.

HYGIENE SOLUTIONS FOR THE POULTRY INDUSTRY

Veugen Technology started over 40 years ago as a side project of our farm for chicken rearing in Nederweert, The Netherlands. This experience translates into customer-oriented and practical solutions that take hygiene to the next level.

*We are the total supplier for the poultry industry.
Disinfection - Vaccination - Pestcontrol*

FOGGING EQUIPMENT
